## Summary

Dynamic Digital Media Editor, specializing in Graphic Design, Video Editing, Social Media Management, Web Design, and A.I. (Artificial Intelligence). Expertise also includes sign production, inventory management, asset protection, and hands-on proficiency with various trade tools and equipment. My latest passion working with AI tools and software, I believe, will play a vital role in most industries in the very near future. But no matter the job, I pride myself on being an efficient, hard-working, team player, dedicated to following company policy and the chain of command.
